

# Lamb of God

Music by Emily Boyer

This responsive song is particularly effective when accompanied by a low drone. The drone can begin on D before the Leader starts, and either remain on D or change to B-flat when the People respond. After the People respond, the drone can change back to D before the Leader sings. The Leader should feel comfortable waiting for a moment each time before he/she enters.

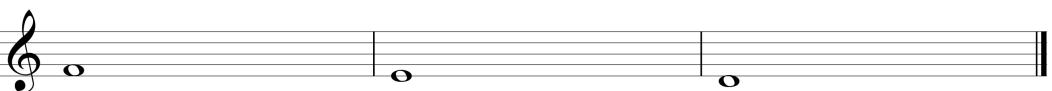

Leader:    
Lamb of God, who takes a-way the sins of the world,

People:    
Lord, have mer - cy up - on us.

Leader:    
Lamb of God, who takes a way the sins of the world,

People:    
Lord, have mer - cy up - on us.

Leader:    
Lamb of God, who takes a way the sins of the world,

People:    
Grant us peace.
